Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 22 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Another hot day with isolated showers.

Today:
Any early low cloud or fog quickly clearing through the early morning with plenty of sunshine to follow. Some cloud developing during the afternoon with some isolated, possibly thundery, showers. Feeling hot. Maximum temperature 31 deg C (88 deg F).

Tonight:
Any showers dying out in the evening, leading to clear skies and fine weather. Overnight, low cloud or fog over the Pennines may creep further west. Remaining warm. Minimum temperature 14 deg C (57 deg F).

Friday:
A hazy and hot day, although temperatures widely one or two degrees lower than recently. Largely dry, but with risk of isolated thundery showers in the far west. Maximum temperature 28 deg C (82 deg F).

Outlook for Saturday to Monday:
A change to more unsettled conditions over this period with temperatures dropping back to around average. Cloudy with some showers, possibly thundery, breaking out each day with occasional sunny intervals.
